Projects & Theses

- **Lin** MS thesis FINISHED: AGG inference for valence changing morphology
- **Wueger** MS thesis: Matrix library for light verb constructions
- **Ruditsky** MS thesis: Matrix library for action nominalizations
- **Bansal** General paper: Thai SVC (with an eye towards library for SVC)
- **Liu** Exploring: What properties of input data lead to more successful AGG inference?
- **Dhungana** Exploring: How is case marking similar & different in Nepali and Yakkha?

Other activities

- Dagstuhl seminar on universals of idiosyncrasy
 - => Follow on project around comparison of semantic representations of MWEs across frameworks
- Upcoming HPSG 2023 keynote: 20 years of the Grammar Matrix
- Seeking funding ideas for 3rd edition of Syntactic Theory: A Formal Introduction

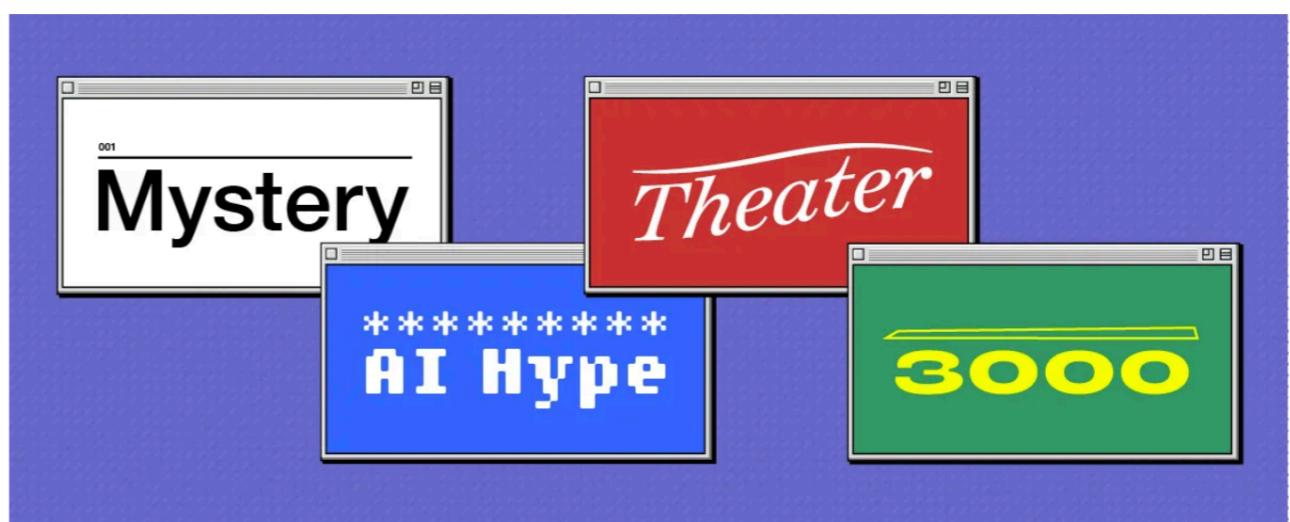

AI hype & the media

ARTIFICIAL INTELLIGENCE | MAR. 1, 2023

You Are Not a Parrot And a chatbot is not a human. And a linguist named Emily M. Bender is very worried what will happen when we forget this.

By Elizabeth Weil, a features writer at New York

The article features a photograph of Emily M. Bender, a linguist, sitting on a chair with a red parrot perched on her shoulder. She is wearing a black blazer and glasses. The background is a plain, light-colored studio backdrop.

DELPH-IN Summit goals

- Advice on MRS representations for:
 - Light verb constructions
 - Serial verb constructions
 - Nominalization
- Initial explorations of differentiating linguistic hypotheses and engineering decisions in the Matrix
