

Grammarians (and Developers) Summary

DELPH-IN, Fefor

13-15 June 2006

Grammar status reports

- French, German, Greek, Norwegian (2), Spanish, Swedish, English
- Recent triumphs and present obstacles/challenges
 - Compounds without spaces, portmanteau words (*zum*)
 - Debugging of morphology in generation
 - Exposing non-subj indices for composition (eg. obj depictives)

Working groups and wiki pages

- FeforGrammarians
- Grammar summaries: JacySummary, GrenouilleSummary, ...
- FeforImmediateChallenges
- MRSTestSuites
- Developers: TestingWithAnt, FeforPetApi, ...

Resolutions and progress: Grammars, MRS/RMRS

- Harmonization of grammars
 - MRS test suites
 - Common abstract semantic predicates
 - Proposed standard naming for lexical (leaf) types
- MRS simplification
 - Aim to eliminate messages by January 2007
- Underspecification of modifier attachment
 - Scopal modifiers
 - Intersective modifiers (PPs, maybe also compounds)
- Discussion of tense/aspect and person/number/(gender)
 - Propose two levels of external interface
 - One language-independent, one for related languages
